3. **Databases:** MySQL(Basic),
4. **Operating Systems:** Windows, Linux (Ubuntu), macOS
5. **Tools & Software:** VS Code, GitHub, XAMPP, CapCut
6. **Office Applications:** Microsoft Word, PowerPoint, Excel, Google Docs
7. **Others:** Video Editing, Presentation Design, Problem Solving, Debugging

Soft Skills:

1. Strong communication and teamwork skills
2. Quick learner with a positive attitude
3. Time management and organizational ability
4. Problem-solving and critical thinking
5. Adaptability and willingness to learn new technologies
6. Creative thinking and attention to detail

Education:

Shree Laxmi Narayan Higher Secondary School
+2 in Computer Science
Graduated: [2080 BS - 2082 BS]
Location: [Roshi-2, Naranter]

Professional Experience:

Graphics Design Intern
Mitra Park, Kathmandu
Duration: 5 months

Projects:

1. **Portfolio Website:**
   Role: Full Stack Developer

   Developed a personal portfolio website using **Django** to showcase my skills and achievements. It includes:

   a. An **About** page describing my background and goals
   b. A **Certificates** section displaying earned certificates
   c. A downloadable **CV** page
   d. Added product photos and categorized products for easier navigation
   e. A **Projects** page with details and GitHub links

   Built using Django's **MTV architecture**, with clean routing, template inheritance, and static file management. Designed for responsiveness and easy navigation.
